

Moving health commodities safely, cost effectively, on time, and in full to almost anywhere on earth

PFSCM has partnered with the **best logistics service providers** to move precious health care commodities via ocean, air, or road to some of the hardest-to-reach places.

Ensuring on-time and in-full deliveries by:

- ▶ **Leveraging our new Control Tower** to track shipments and products through the whole supply chain. The tracking information enables data-driven decision making, which reduces inefficiencies and manages risk.
- ▶ **Working with specialized freight forwarders** that have extensive experience delivering temperature and time-sensitive goods to challenging environments.
- ▶ **Collaborating with our logistics services providers** to proactively secure waivers and import documents for our clients.
- ▶ **Ensuring cost-effective transport** by implementing proven freight strategies; competitive bidding, negotiating contract rates, lanes, and routes; spot bidding and load optimization.

Our clients benefit from:

Cost-effective logistics

We beat industry prices by negotiating fair contract rates, undertaking spot bidding, using courier services for small shipments, and securing lanes for planned shipments in advance.

Technical advice and support

PFSCM has extensive experience in moving pharmaceuticals to some of the most challenging places on earth.

On-time and in-full deliveries

Deliveries arrive exactly when needed, not early and certainly not late. Our clients receive everything they have ordered, 100% complete.

Service excellence

Our ISO 9001:2015 certified QMS provides clients with the assurance that our business is conducted within a standardized framework.

Our Mission

PFSCM strengthens, develops, and manages secure, reliable, cost-effective, and sustainable global supply chains to improve the lives of people in low- and middle-income countries.

Our Partnerships

PFSCM partners with donors, governments, NGOs, and pharmaceutical companies to develop and manage supply chains. Our partners and clients include the Global Fund to Fight AIDS, Tuberculosis and Malaria; the US Agency for International Development; Save the Children Myanmar; the governments of the Dominican Republic and Malawi; Gilead; Janssen; and the Elizabeth Glaser Pediatric AIDS Foundation. PFSCM is also a member of the Partnership for Quality Medical Donations (PQMD).

Our Impact

IN 2017
84%

of deliveries of products to fight HIV and malaria were made on time and in full (OTIF)

MORE THAN
\$5.55 billion

in lifesaving commodities delivered to 101 countries since 2005

ONLY
0.02%

commodity losses thanks to our rigorous security and quality assurance measures

MORE THAN
\$175 million

saved for clients through shipment planning to maximize ocean and road freight and minimize air freight

About Us

Founded in 2005, PFSCM is a nonprofit alliance comprising two organizations that operate and strengthen humanitarian and commercial global supply chains: JSI Research & Training Institute, Inc. (JSI) and Management Sciences for Health (MSH).
