

HEALTH LOGISTICS HIGHLIGHTS

Established in 2005

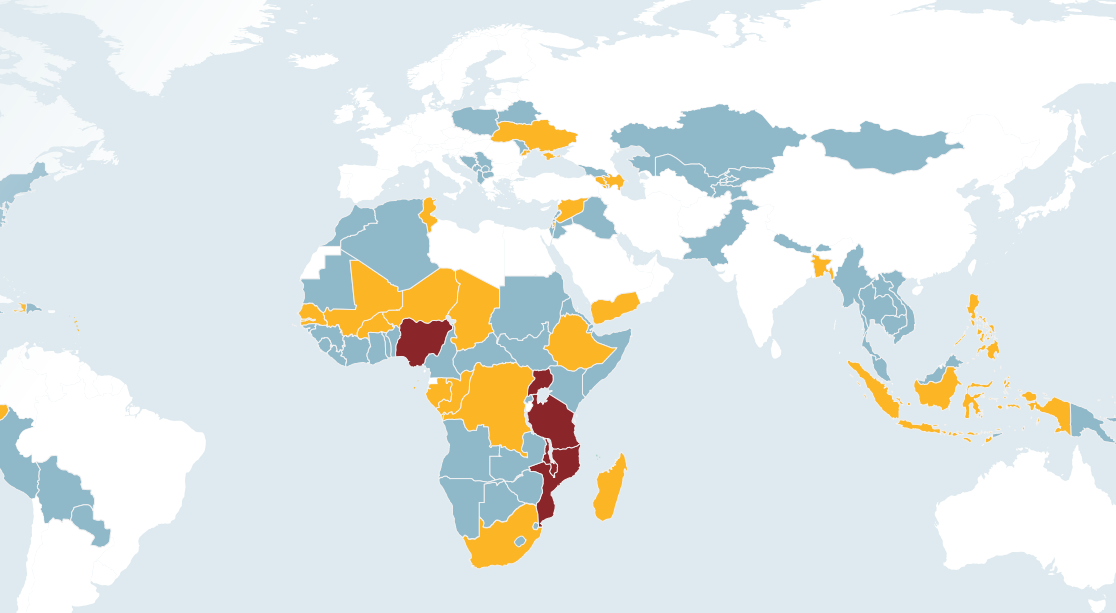

Partnership for Supply Chain Management

LOGISTICS SERVICES

As a carrier-neutral 4PL services provider, we combine tools, technology, data, experience, and governance to optimize our clients' supply chains.

WE SPECIALIZE IN:

- ▶ End-to-end supply chain visibility
- ▶ Cold chain management
- ▶ Warehousing and distribution
- ▶ Load optimization
- ▶ Pharmaceutical and medical device transportation
- ▶ Performance management and analytics

- Countries served by PFSCM
- Countries served by PFSCM that experienced a crisis since 2020
- High volume countries served by PFSCM

SINCE 2020 PFSCM:

Delivered **9,616 shipments** to **111 countries**. More than **6,923** of these shipments were temperature controlled.

Optimized thousands of shipments saving clients more than **\$5.million** in freight costs.

IN 2023 PFSCM:

Saved **\$3.5 million** in freight costs compared to 2022.

Had **zero** insurance claims for cold chain shipments.

Established a **baseline of logistics emissions** to identify areas for improvement.

WE ACHIEVE OUR GOALS BY:

PARTNERING WITH EXPERIENCED 3PLS

We work with specialized freight forwarders that have extensive experience delivering fragile time and temperature sensitive products to challenging environments.

SECURING IMPORTATION DOCUMENTS AND WAIVERS

We collaborate with our 3PLs and their agents, to proactively secure waivers and import documents for our clients.

IMPLEMENTING PROVEN FREIGHT STRATEGIES

We reduce transport costs by implementing proven freight management strategies, technologies, and tools such as load optimization.

LEVERAGING TRACK & TRACE TECHNOLOGY

We leverage our new Control Tower and cold chain data loggers to track shipments, and products through the whole supply chain.
